It's more than 20 metres high and weighs about 200,000 kilograms. It's about 3500 years old. The British made a special ship for the stone in 1877. The Needle of Cleopatra is a great monument.

Subject: Random acts of kindness

Dear Hany,

I'm very pleased to write this email to you. How are you ? I decided to do one act of kindness every day for three days. First, I bought my grandfather some of his favourite books from the bookshop on my way to school. He was very surprised, but he was happy and thanked me. After that, I helped an old woman to cross the street. Finally, I took a sandwich and a cold drink to an old poor man on our street corner. Tell me about acts of kindness you do.

Yours,
Samy

"Helping others"

Helping others is a great thing, especially people who need help such as the poor and the disabled. We should teach young people and children how to look after them. You can help others in your local area or by working for charities. I prefer working for charities as their work is organised. Some people can help by donating money to these charities. Others can give some food or clothes to the poor. I prefer to help the disabled.

Unit 6

"The effect of climate change on the environment"

Climate change has bad effects on our planet. The rise of temperature can cause serious problems. Climate change in Australia, for example, makes the weather hotter and drier. More droughts mean worse fires than ever before. Also, climate change can affect badly on ice on top of mountains. When much ice melts, it causes floods. We should help the environment and stop this rise of temperature. Some places on Earth are in a great danger because of the climate change.

"My home city"

My home city is Damietta. It's located in the north of Egypt. It has a famous port on the Mediterranean Sea. My city is famous for making furniture. There are many workshops there. Carpenters in Damietta are very clever. They sell their products all over the world. Damietta is also famous for sweets

which are very delicious. Young people there are proud of their city. You can enjoy the beautiful view of the Nile and the sea at night. It's very beautiful and interesting.

"How to use less water"

Saving water is very important. We should learn how to use less water. Parents and teachers should show the importance of water to children. There are many ways that can help us to save water. We should learn, for example, how to recycle water. We can use the water from washing to water the plants. Also, we can have short showers to save water. Finally, we can mend all the damaged taps at homes, parks and streets. Some countries use modern ways to water plants.

From : waheed@gmail.com

Subject: Recycling at home

Dear Tamer,

How are things ? I want to tell you that recycling is very important. A lot of countries make use of recycling things. We can put a rubbish bin in every room. Also, we can separate things that are made of metal from plastic things. Rubbish should be collected every week and goes to special places in the city. We can ask ourselves if these things can be recycled or not. There are many things such as bottles that can be used again at home after washing and cleaning them.

Waheed

Daily routine

My name's Huda. I live in the second floor of the new block of flats with my dad, mother, grandma and two brothers. I always get up at 6 o'clock on a school day. My mother always makes my breakfast. I walk to school with my two brothers. My father goes to work at 7:30 am. He works in a school. Sometimes I walk to school with my father. I never go to school late. We usually have lunch at five together. In the evenings, I do my homework. I often play chess with my grandma before I go to bed. I study hard for my exams. I often listen to music. We often go to the park at the weekends. I like to play on the grass there.

My bedroom

I live in a flat with my family. It has got two bedrooms, a dining room, a kitchen and a living room and a bathroom. It's in a big city. Our flat is very comfortable. My bedroom has a big window with curtains. When I open the curtains, the room is very bright with sunlight. My bed is under the window. I have a wardrobe in front of the bed. I put my clothes there. There is a mirror next to the wardrobe. There's also a lamp next to the bed. The bathroom is next to my bedroom. It's big. It has a nice basin there. In the evenings, I like to read in bed or watch TV. Sometimes I sleep with the curtains open.

"My penfriend

Today , I'm going to talk about my penfriend. I have a penfriend from England His name is John. He is thirteen years old. He is very nice and friendly. He tells me about his daily routine. His daily routine is the same as mine. He gets up at 6:30 every morning. His school starts very early so he goes to school without having breakfast with his family. He has his breakfast at school in " breakfast break". His favourite subjects are maths and science. Kevin will visit Egypt for the first time on the next summer holiday. I hope to see him soon.

A job you like

There are many interesting jobs. I think the doctor's job is the most important one. He or she helps us get better after being sick. I look forward to becoming a doctor one day to look after the sick and to try to find out the reason for that. He always looks after ill people and tries to find out why they are ill or what hurts them. If a doctor understands their illness, he gives them the right medicines to feel better. A good doctor usually makes sure that all people feel healthy. The nurse's job is as important as she helps doctors and patients. They are truly angels. We have to work hard to have the jobs of our dreams.

What makes a hero

A hero is someone who can show courage when they face a problem.

A hero is a person who is able to help the others in many ways. A person can become a hero by saving someone who is in danger. Another example of a hero is someone who is there to help others to go on through difficulties of life. A hero can be someone who gives up their life so that others could live. A hero does not always have to show courage, he can be afraid, but still be a hero through his other actions. A hero can be a teacher. He can teach you to read or write and that will make a big difference in your life. That is a hero to me, someone who makes a difference in a person's life.

Someone I'm proud of

Of all the members in my family, my mother is the person I am proud of. She is 40 years. She looks much younger than her age with short hair and a beautiful face. She works hard. At work, she is respected by all of her friends. She is a useful person in society. My mother always does the housework well. She is a very good cook. I really admire her for her wonderful dishes. She often spends her free time cooking delicious dishes for us, which makes everyone in my family happy. What's more, my mother is an excellent adviser. I always love her and I will always be proud of her.

How life used to be different in ancient Egypt

Life in Ancient Egypt was different to today. Poor children didn't use to go to school. Children from rich families used to start school when they were about seven. Children used to enjoy playing games. When older parents died, they used to leave their houses to the sons. The Ancient Egyptians used to leave jewellery and furniture inside their houses to the daughters. They lived around the Nile River where they could grow crops. They built pyramids. You can still see these pyramids today. They knew a lot about maths, medicine and farming.

A historic place you visited

I visited one of the greatest historic places in India, the Taj Mahal in Agra. I went there with my mum and dad. It is very huge in size. I studied about the Taj Mahal at school, I also saw its pictures. But watching it with my eyes was like a dream that came true. It was built by Shah Jahan around 1630s. He built it as a gift to his wife, Mumtaz Mahal. This history made it more interesting. It took around 22 years to build. People think that Shah Jahan cut off the hands of the workers who built it so that no similar building could be built. Therefore, this is one of the most awesome historic places.

When older parents died, they used to leave their houses to the sons. However, they used to leave things inside the house, such as jewellery and furniture, to the daughters. He built it as a gift to his wife, Mumtaz Mahal. This history made it more interesting. It took around 22 years to build. People think that Shah Jahan cut off the hands of the workers who built it so

that no similar building could be built. Therefore, this is one of the most awesome historic places.

It's important to do random acts of kindness. The smallest things can make others smile. I think that if you do something kind to someone, they will take that act of kindness and move it to people they come across during their day. It's the smallest things that make the biggest differences. For example, holding the door for someone who has their hands full or smiling at a stranger as they pass by, these little things let people know that someone cares about them. Today, before you go to bed, do a random act of kindness. It can be to someone you know or someone who is a complete stranger, but it has to be random. Making new friends helps us a lot in our life.

When you move to a new place or a new school, you can make new friends. They help you make right decisions and have new experience. It's important to choose your new friends carefully. Good friends will help you in your life. Don't make friends with people who are older than you. They might think in a different way. Teenagers

Teenagers should use their time in a good way.

There are some goals. First, they should sleep enough time at least 8 hours. Most of them like staying up late, but it isn't useful for their health. Secondly, it's

important for them to make new friends to be happy, but they should choose their friends carefully. After that, they can travel to open places such as the park, the sea or the Nile. Nature makes them happier.

Helping others makes you feel happy. Finally, it's important for them to remember the good things in their life.

Egyptian heroes

Ancient Egyptian Doctors

Ancient Egyptian doctors helped their patients because they wrote down their ideas thousands of years ago . They are the first people to understand that heart pumps **يضخ** blood around the body. They used to think that heart pumps air to our lungs. They understood some of things the brain does. Doctors used to use plants to help people with burns and to stop infections **العدوى**. They also knew how to mend **يصلح** broken bones **العظام المكسورة** and sew cuts **ويخيط الجروح**. They used to make medicine from animal eyes to help people who couldn't see.

Dr Magdy Yacoub

My hero is Dr Magdy Yacoub. We should all be proud of him. He was born in 1935 in Bilbeis. His family used to travel to many places because his father was an important doctor. Magdy also became a doctor. He is a surgeon. He worked in a special hospital in London. He for ill children in Aswan. He used to work as a volunteer doctor. He used to look after poor people. I feel very proud of him. He won many prizes in England and Egypt.

My mother is my hero. I'm proud of her. She is an important nurse. She works in a big hospital in Alexandria. She studied at the faculty of Nursing. She studied at Alexandria University. Her life used to be difficult. She works hard. She sometimes works at night. She works everyday for many years. She is also a manager. She helps to teach younger nurses. I think she is a hero because she studies hard and works at a charity to help people. She also looks after children. She also helps me and my sister with our school work.

Our body

We should keep our bodies healthy. Healthy food, enough sleep and doing sports are very important for our bodies. We should eat different kinds of healthy food to build our bodies. Also, children and young people should sleep well to be healthy. Sports are the most important thing. Young people should practice the sports they prefer. Parents should advise children to look after their bodies to grow well. Also, they should warn them of bad habits like watching too much TV and eating unhealthy food. You can go to school on your bike. It's a good and a cheap way to be healthy

There are some jobs we can't do without them. Rubbish collectors, for example, are very important. The city would be terrible without them. They clean streets, parks and different places around us. We should respect them. We should teach our children to help and keep places clean to help them. They have to work in different places and different times. People should put their rubbish in bins to make their job easier. Rubbish collectors do a great job for us. They are really heroes in the community.

A job you would like to be

It's more than 20 meters high and weighs about 200,000 kilograms. It's about 3500 years old. The British made a special ship for the stone in 1877. While the ship was traveling to London, it nearly sank in a storm. Another ship completed the journey to London. The Needle of Cleopatra is a great monument.

Helping others

Helping others is a great thing, especially people who need help such as the poor and the disabled. We should teach young people and children how to look after them. You can help others in your local area or by working for charities. I prefer working for charities as their work is organized. Some people can help by serving some food, clothes or donating money to these charities. I prefer giving help to the disabled. We should help old people by visiting them and preparing food for them. We can clean their houses. We can help our friends with their homework. We can help our parents with housework.

The effect of climate change on the environment

Climate change has bad effects on our planet. The rise of temperature can cause serious problems. Climate change in Australia, for example, makes the weather hotter and drier. It means droughts and more fires in forests. Also, climate change can affect badly on ice on top of mountains. When ice melts, it causes floods. We should help the environment and stop this rise of temperature. Some places on Earth are in a great danger because of the climate change. Countries should use solar panels in streets instead of fuels that cause Carbon dioxide. We should use green energy.

My home city

My home city is Alexandria. It's located in the north of Egypt. It has a famous port on the Mediterranean Sea. It is one of the most beautiful cities in Egypt. It has many beautiful beaches. The water is clean. You can enjoy many watersports. The weather is very nice. It has many famous places for tourists to visit. They can visit the Alexandria Library. It has many books. They can visit Fort Qaitbey. It's near the sea. It has a museum. It has El Montazah Palace. It's a nice place for a picnic. Alexandria is a good place for a holiday. I like Alexandria very much.

How to use less Water

We can't live without water. Saving water is very important as water is the secret of life. We should learn how to use less water. Parents and teachers should show the importance of water to children. There are many ways that can help us to save water. We should learn, for example, how to recycle water. We can use water for drinking, watering the plants and washing. Also, we can have short showers to save water. Finally, we can mend all the damaged taps in parks and streets. Some countries use modern ways to irrigate plants.

Dear Tamer,

How are things? I want to tell you that recycling at home is very important. A lot of countries make use of recycling things. We can put a rubbish bin in every room. Also, we can separate things that are made of metal from plastic things. Rubbish should be collected every week and goes to special places in the city. We can ask ourselves if these things can be recycled or not. There are many things such as bottles can be used again at home after washing and cleaning them. Recycling saves a lot of money. If we don't recycle things, they will pollute the rivers and seas.
